RAPID

AGILE

EFFECTIVE

Manufacturers face ever-increasing disruption caused by factors that include technology-driven innovation, changing consumer preferences, and economic, geopolitical and societal events. In order to survive and thrive, manufacturers must be able to innovate and change business models at unprecedented rates of speed. These companies are called Adaptive Manufacturing Enterprises.

eNoah helps manufacturers rapidly respond and plan for disruptions to their business or industry in order to thrive as Adaptive Manufacturing Enterprises. Traditional tactics, processes and systems can often hinder a company's ability to respond to change. eNoah delivers rapid, agile and effective cloud ERP solutions for manufacturers to focus on the disruptions they face today and provide the flexibility to address future challenges.

## Leverage Benefits of Partnering

Focus on Core

Scalability

Competence & Domain Knowledge

Cost Savings

Faster Turn Around Time

Strong Technical Skills

## Testimonials

**Xavier Bapticia - IT Head  
APAC**

“ One of the major challenges in my organization was revenue leakage. After analyzing the areas where we needed to improve, we found out that the cost of the material was done manually, which meant there were a lot of mismatched numbers between the system and the paper. So I decided to move forward with a robust system that can update the cost online and avoid all mismatches. The outcome was the online cost update system. With this system, I now have solid control of my cost and have improved my revenue by 10%.

Thanks to eNoah, who helped us and made a big difference to Circor's business and revenue. ”

**Romeo Sequeira - Senior Director,  
QAD Consulting, North America**

“ Balu and the team at eNoah are really great to work with. They are very responsive and always ready to help out with a positive attitude.

My personal experience with eNoah has been nothing less than outstanding and it shows their focus on customer satisfaction.

Wishing eNoah many more milestones and great success. ”

## Customer Success

### eNoah transformed a leading automotive supplier's Business Process using QAD

#### Challenge

- ✓ Purchase of inventory was disproportionate to demand
- ✓ Incorrect Planning parameters
- ✓ MMOG/LE compliance was not met
